

kilelele

Colombian Joy

2023 Collection

kilele, of Pacific origin, is a tribute to the coffee growers of the region. Men and women who wake up every day at dawn, inspired by dreams and passions represented in coffee. Their most loyal companion: the hat, the one with the hot and cold days, the one that conspires against the rain, the one that conspires against the wind that comes from the nearby ocean with the intention of giving sweetness to our coffee.

kilele, origen Pacífico, es un tributo a los caficultores de la región. Hombres y mujeres que se levantan cada día de madrugada, inspirados por sueños y pasiones representadas en el café.

Su compañero más leal: el sombrero, el de los días cálidos y fríos, el que confabula con el sol y conspira contra la lluvia, el que acepta las caricias del viento que llegan desde el cercano océano con la intención de imprimirle dulzura a nuestro café.
